

## Listă de lucrări

- 1 Algebras of block Toeplitz matrices with commuting entries, *Linear Multilinear Algebra* 69 (2021), 2702–2716.
- 2 The invariant subspaces of  $S \oplus S^*$ , *Concrete Operators* 7 (2020), 116–123.
- 3 Commutant lifting and Nevanlinna-Pick interpolation in several variables, cu Deepak K.D., D.K. Pradhan, J. Sarkar, *Integral Equations and Operator Theory* 92 (2020), Paper no.27, 15p.
- 4 Algebras of block Toeplitz matrices with commuting entries, cu Muhammad Ahsan Khan, *Linear and Multilinear Algebra*, acceptat.
- 5 Matrix valued truncated Toeplitz operators: basic properties, cu Rewayat Khan, *Complex Anal. Oper. Theory* 12 (2018), no. 4, 997–1014.
- 6 Truncated Toeplitz operators and complex symmetries, cu Hari Bercovici, *Proc. Amer. Math. Soc.* 146 (2018), no. 1, 261–266.
- 7 A Szegő type theorem for truncated Toeplitz operators, cu Elizabeth Strouse și Mohamed Zarrabi, *Journal of Approximation Theory* 220 (2017), 12–30.
- 8 Factorizations of kernels and reproducing kernel Hilbert spaces, cu R. Kumari, J. Sarkar și S. Sarkar, *Integral Equations and Operator Theory* 87 (2017), 225–244.
- 9 Classes of contractions and Harnack domination, cu Catalin Badea și Laurian Suciu, *Revista Matematica Iberoamericana* 33 (2017), 469–488.
- 10 An extremal problem for characteristic functions, cu I. Chalendar, S.R. Garcia și W.T. Ross, *Trans. Amer. Math. Soc.* 368 (2016), 4115–4135.
- 11 A short introduction to de Branges–Rovnyak spaces, în *Invariant Subspaces of the Shift Operator*, Contemporary Mathematics, AMS 2015, 21–38.
- 12 Note on a Julia operator related to model spaces, în *Invariant Subspaces of the Shift Operator*, Contemporary Mathematics, AMS 2015, 247–254.
- 13 Contractively included subspaces of Pick spaces, cu Chafiq Benhida, *Complex Anal. Oper. Theory* 9 (2015), 245–264.
- 14 Commutation relations for truncated Toeplitz operators, cu I. Chalendar, *Operators and Matrices*, 8 (2014), 877–888.
- 15 Nonextreme de Branges–Rovnyak spaces as models for contractions, cu Javad Mashregi, *Integral Equations Operator Theory* 80 (2014), 137–152.
- 16 Schur coupling and related equivalence relations for operators on a Hilbert space, *Linear Algebra Appl.* 452 (2014), 106–119.

- 17 The numerical range of a contraction with finite defect numbers, cu H. Bercovici, *J. Math. Anal. Appl.* **417** (2014), 42–56.
- 18 Two remarks about nilpotent operators of order two, cu S.R. Garcia și B. Lutz, *Proc. Amer. Math. Soc.* **142** (2014), 1749–1756.
- 19 Embeddings of Müntz spaces: the Hilbertian case, cu S. Waleed Noor, *Proc. Amer. Math. Soc.* **141** (2013), 2009–2023.
- 20 A note on composition operators in a half-plane, cu H. Bercovici, *Arch. Math. (Basel)* **99** (2012), 567–576.
- 21 Unitary equivalence to truncated Toeplitz operators, cu E. Strouse și M. Zarrabi, *Indiana Univ. Math. J.* **61** (2012), 525–538.
- 22 Embedding theorems for Müntz spaces, cu I. Chalendar și E. Fricain, *Ann. Inst. Fourier* **61** (2011), 2291–2311.
- 23 Factorization of analytic self-maps of the half-plane, cu H. Bercovici, *Ann. Acad. Sci. Fenn.* **37** (2012), 1–12.
- 24 Numerical ranges of  $C_0(N)$  contractions, cu Ch. Benhida și P. Gorkin, *Integral Equations Operator Theory* **70** (2011), 265–279.
- 25 A family of reductions for Schubert intersection problems, cu H. Bercovici și W.S. Li, *J. Algebraic Combin.* **33** (2011), 609–649.
- 26 Extensions of positive definite functions on amenable groups, cu M. Bakonyi, *Canad. Math. Bull.* **54** (2011), 3–11.
- 27 Bounded symbols and reproducing kernel thesis for truncated Toeplitz operators, cu A. Baranov, I. Chalendar, E. Fricain, J. Mashreghi, *J. Funct. Anal.* **259** (2010), 2673–2701.
- 28 Intersections of Schubert varieties and eigenvalue inequalities in an arbitrary finite factor, cu H. Bercovici, B. Collins, K. Dykema și W.S. Li, *J. Funct. Anal.* **258** (2010), 1579–1627.
- 29 On an extremal problem of Garcia și Ross, cu I. Chalendar și E. Fricain, *Operators și Matrices* **3** (2009), 541–546.
- 30 The Horn conjecture for sums of compact selfadjoint operators, cu H. Bercovici și W.S. Li, *Amer. J. Math.* **131** (2009), 1543–1567.
- 31 On certain Riesz families in vector-valued de Branges–Rovnyak spaces, cu N. Chevrot și E. Fricain, *J. Math. Anal. Appl.* **355** (2009), 110–125.
- 32 Finitely strictly singular operators between James spaces, cu I. Chalendar, E. Fricain, A. Popov și V. Troitsky, *J. Funct. Anal.* **256** (2009), 1258–1268.
- 33 A note on the stability of linear combinations of algebraic operators, cu I. Chalendar și E. Fricain, *Extracta Math.* **23** (2008), 43–48.

- 34 The central completion of a positive block operator matrix, cu M. Bakonyi, in *Operator theory, structured matrices și dilations*, 69–83, Theta, București, 2007.
- 35 The characteristic function of a complex symmetric contraction, cu N. Chevrot și E. Fricain, *Proc. Amer. Math. Soc.* **135** (2007), 2877–2886.
- 36 Extensions of positive definite functions on free groups, cu M. Bakonyi, *J. Functional Analysis*, **246** (2007), 31–49.
- 37 Some automorphism invariance properties for multicontractions, cu Ch. Benhida, *Indiana Univ. Math. J.* **56** (2007), 481–500.
- 38 Weak contractions and trace class perturbations, cu H. Bercovici, *Oper. Matrices* **1** (2007), 71–85.
- 39 Characteristic functions for multicontractions and automorphisms of the unit ball, cu Ch. Benhida, *Integral Equations Operator Theory* **52** (2007), 153–166.
- 40 The characteristic function of a complex symmetric contraction, cu N. Chevrot și E. Fricain, *Proc. A.M.S.* **135** (2007), 2877–2886.
- 41 Trace-class perturbations and functional calculus, cu H. Bercovici, în *Operator Theory, Operator Algebras și Applications*, Deguang Han, Palle E.T. Jorgensen și D.R. Larson, Editors, Contemporary Mathematics **414**, American Mathematical Society, 2006, 399–402.
- 42 Inner-outer factorization for operator-valued functions on ordered groups, cu M. Bakonyi, *Studia Mathematica* **169** (2005), 295–303.
- 43 A remark on positive definite functions on free groups, cu M. Bakonyi, *Demonstratio Mathematica* **39** (2006), 317–320.
- 44 The relaxed intertwining lifting in the coupling approach, cu W.S. Li, *Integral Equations Operator Theory* **54** (2005), 97–111.
- 45 Power boundedness and similarity to contractions for some perturbations of isometries, cu G. Cassier, *Journal of Mathematical Analysis and Applications* **293** (2004), 160–180.
- 46 Approximation theory and matrix completions, cu D. Hadwin și D.R. Larson, *Linear Algebra Appl.* **377** (2004), 165–179.
- 47 Functional models and asymptotically orthonormal sequences, cu I. Chalendar și E. Fricain *Ann. Institut Fourier*, **53** (2003), 1527–1549.
- 48 The intertwining lifting theorem for ordered groups, cu M. Bakonyi, *J. Functional Analysis* **199** (2003), 411–426.

- 49 A von Neumann type inequality for certain domains in  $\mathbf{C}^n$ , cu C.-G. Ambrozie, *Proceedings of the AMS* **131** (2003), 859–869.
- 50 The weighted intertwining lifting theorem in the coupling approach, *Integral Equations and Operator Theory* **42** (2002), 493–497.
- 51 On an intertwining lifting theorem for certain reproducing kernel Hilbert spaces, cu C.-G. Ambrozie, *Integral Equations and Operator Theory* **42** (2002), 373–384.
- 52 On an extension problem for polynomials, cu M. Bakonyi, *Bull. London Math. Soc.* **33** (2001), 599–605.
- 53 A note on finite rank perturbations of contractions and dual algebras, cu Ch. Benhida, *Bull. Math. Soc. Sc. Math. Roum.*, **44(92)** (2001), 193–198.
- 54 Finite rank perturbations of contractions, cu Ch. Benhida, *Integral Equations Operator Theory* **36** (2000), 253-268.
- 55 A commutant lifting theorem for the polydisc, cu J. A. Ball, W. S. Li și T. T. Trent, *Indiana Univ. Math. Journal* **48** (1999), 653-675.
- 56 On the three chains theorem in intertwining lifting, *Bul. Acad. Sti. Rep. Moldova* **3(28)** (1998), 133-136.
- 57 Regular dilations and models for multicontractions, *Indiana Univ. Math. Journal* **47** (1998), no.2, 671-684.
- 58 The central Ando dilation and related orthogonality properties, cu W. S. Li, *J. Funct. Analysis* **154** (1998), 1-16.
- 59 On isometric intertwining liftings, cu W. S. Li, *Operator Theory: Advances and Applications* **104** (1998), 155-167.
- 60 On a conjecture of Cotlar and Sadosky on multidimensional Hankel operators, cu M. Bakonyi, *Comptes Rendus de l'Academie des Sciences* **325**, I (1997), 1071-1075.
- 61 Functional models and finite dimensional perturbations of the shift, cu Ch. Benhida, *Integral equations and Operator Theory* **29**, 2 (1997), 187-196.
- 62 A short proof of N.Young's theorem on the orbits of the action of the symplectic group, *Proc. of the Edinburgh Mathematical Society* **40** (1997), 309-315.
- 63 On some perturbations of completely non-unitary contractions of multiplicity two, *Acta Scientiarum Mathematicarum* **61** (1995), 477-491.
- 64 Redheffer products and characteristic functions, *J. Math. Anal. Appl.* **196** (1995), 823-840.

- 65** A note on Cartan open subsets of  $\mathbf{R}^n \times \mathbf{C}$ , cu E.Pascu, *Rev. Roum. Math. Pures Appl.* **38** (1993), 35-36.
- 66** Completions of matrices and the commutant lifting theorem, *J. Functional Analysis* **104** (1992), 291-298.
- 67** A note on Parrott's strong theorem, *J. Math. Anal. Appl.* **171** (1992), 288-293.
- 68**  $C_p$  estimates for certain kernels on local fields, *Studia Math.* **88** (1988), 43-50.
- 69**  $C_p$  estimates for certain kernels : the case  $0 < p < 1$ , *J. Functional Analysis* **72** (1987), 368-380.
- 70** A topological characterization of Cartan open subsets of  $\mathbf{R} \times \mathbf{C}$ , cu E.Pascu, *Rev. Roum. Math. Pures Appl.* **31** (1986), 309-316.
- 71** Prediction theory and choice sequences: an alternate approach, *Operator Theory: Advances and Applications* **17** (1986), 341-352.
- 72** A note on  $C_p$  estimates for certain kernels, *Integral Equations Operator Theory* **9** (1986), 295-304.
- 73** On the notion of prediction in completeness theory, cu I.Suciu, in *Prediction Theory și Harmonic Analysis*, North Holl și, Amsterdam, 1983, 367-378.
- 74** A new algorithm for detecting reflection coefficients in layered media, cu Gr.Arsene, Z.Ceașescu și Fl.-A.Potra, *Ann.Geophysicae* **1** (1983), 285-290.
- 75** Remark on the Bartle-Graves theorem, *Operator Theory : Advances and Applications* **11** (1983), 389-394.
- 76** The Levinson algorithm in linear prediction, *Operator Theory : Advances and Applications* **8** (1982), 217-223.
- 77** Characterizations of some Harnack parts of contractions, cu T. Ando și I.Suciu, *J. Operator Theory* **2** (1979), 233-245.
- 78** Generalizări ale unor funcții definite pe  $L(H)$ , cu H.Bercovici și R.N.Gologan, *St. Cerc. Mat.* **27** (1975), 131-156.
- 79** On Riemann-Stieltjes integrability, *Rev. Roum. Math. Pures Appl.* **28** (1973), 291-293.

**Cărți:**

*Analiză Matematică* (cu A. Halanay și R.N. Gologan), două volume, 1998 și 1999, Matrixrom.

*Recent Advances in Operator Theory and Operator Algebras* (cu H. Bercovici, D. Kerr și E. Katsoulis), 2017 CRC Press.

**Coeditor la volume de proceedings:**
