INSTITUTUL DE MATEMATICA "SIMION STOILOW" AL ACADEMIEI ROMANE

Mini Workshop:
PDE, Harmonic Analysis & Mathematical Physics

Wednesday January 17, 2018

10:00	Ingrid Beltiță (IMAR)	On the C*-algebras of exponential Lie groups
11:00	Marius Măntoiu (Univ. de Chile)	Global and Concrete Quantization for Non-unimodular Groups
12:00		*<coffee and discussions>*
13:00	Irina Nenciu (Chicago Univ.)	On some concrete criteria for quantum and stochastic confinement *(lecture delivered as IMAR monthly conference at "M. Nicolescu" Hall)*
14:00		*<coffee break>*
14:30	Gruia Arsu (IMAR)	Mixed Young's inequality for integral operators and applications to magnetic pseudodifferential operators
15:10	Radu Purice (IMAR)	Peierls' type effective Hamiltonians in the absence of Wannier functions

IMAR, Hall "Constantin Banica" (306-307).
