Dear Professor Purice,

Please receive my strongest support for the accreditation of Scoala Normala Superioara - Bucharest.

It is a very sound institution which makes it possible for the best students of Romania to get to the level where they can start research (in mathematics or computer science). The international scientific committee guarantees the best selection of courses. Students are excellent and motivated, as I noticed when teaching a course a few years ago.

Altogether, the SNSB is a very valuable contribution to the development of science. I recommend it very highly.

Sincerely yours,

C.Soulé
Mathematician
Member of the French Academy of Sciences.
