Call for courses

Școala Normală Superioară București (SNSB) – Department of Mathematics – has opened the call for courses for the academic year 2005-2006.

Programs of courses of 2-3 years could also be proposed.

Conditions

- Each course will consist of 4 hours/week (lecture + problem-solving session), in 13 weeks. Intensive courses of 40 hours over 2-4 weeks are admitted.
- The courses needed are
 - 1 introductory course in algebra-geometry-topology and 1 introductory course in analysis, for Mathematics students in their 1st and second year.
 - courses accessible to students from the 3rd and 4th year.
 - 3 Master courses in Algebraic or Differential Topology or related domains
 - 2 Master Courses in Mathematical Physics and Spectral Theory of Quantum Hamiltonians.
- To eliminate redundancy, courses offered in 2005-2006 at the University of Bucharest will not be accepted.

Financial conditions

- SNSB and the IMAR will provide room and board in Bucharest and a complementary allowance.
- For lecturers from abroad we will cover international transportation costs.

How to propose a course

- By e-mail to the address snsb@imar.ro until September 20, 2005.
- The proposal will contain:
 - The title of the course (in English).
 - The abstract and the course outline (5-30 lines, in English).
 - The list of the best 5 publications of the proposer (not necessarily connected to the proposed course)

Selection of the courses

- The courses will be selected by the SNSB Scientific Committee.
- The selected courses will be communicated before September 30, 2005.

For questions please write to snsb@imar.ro
